

MULTIGRADE OIL FOR GASOLINE ENGINES

Product Description

Dragon SN is multi-grade engine oil for all gasoline engines. It suitable for recent technology engines (multi-valve, turbocharged, with/without catalytic converter) and vehicles requiring performance specification API SL

Applications

- All gasoline engines, specially for most recent technology engines (multi-valve, turbocharged, with/without catalytic converter) supercharged or not, in cars
- Suitable for all journeys (in town, on highways) and particular in severe conditions
- For all driving styles, vigorous speeds in all seasons

Features and potential benefits

- Meets API SN and ILSAC GF-5 requirements (0W-20, 0W-30, 5W-20, 5W-30, 10W-30), guarantee of an high and constant quality for lubricants
- Ensures easy cold start due to its extreme fluidity at low temperature and maintains a very resistant oil film even at extremely high operating temperature
- Protects mechanical parts and fully preserves the engine power, thus contributing to its youth and strength.
- Low viscosity grades provides reduced friction and therefore creates fuel savings, which decrease CO2 emissions.

Performance level
