

Product Information

PLUS 2

MOTORCYCLE TWO STROKE ENGINE OILS

Description

Plus 2 is a top quality synthetic boosted two stroke engine oil, combining high quality mineral oils with the latest performance additives. This grade has been developed directly from motorcycle racing technology. Plus 2 provides a high level of film strength, anti-wear performance and protects main and big end bearings, gudgeon pins, rings and bores, therefore prolonging engine life. Plus 2 is clean burning and virtually eliminates the need for maintenance on power valves and exhaust ports. It provides all season reliability for modern 2-stroke engines of all capacities.

Applications

Plus is recommended for all two stroke engines, whether premix or injector, where an oil of this specification is demanded. Check the manufacturer's handbook for mixing method and dilution ratios. Ideal for engines used for high mileage or stop/start duties, where reliability is paramount, i.e. messenger fleets.

Performance Level

JASO FC
API TC+
ISO-EGD.

Physical Characteristics

Colour	Red
Density at 15°C	0.873
Kinematic Viscosity at 100 °C, cSt	13.2
Kinematic Viscosity at 40 °C, cSt	100
Viscosity Index	125
Sulphated Ash, %Wt.	< 0.1
Pour Point , °C	-20
Flash Point (Closed) °C	90

Certificate No. FM 21756
