

## Product Information

# RACE 4 TT 10W-40

## FOUR STROKE MOTORCYCLE ENGINE OIL

---

### Description

Race 4 TT 10W-40 is an advanced fully synthetic 4-stroke engine oil for all high performance sports bikes, super bikes and production racers. The lubricant has been developed directly from motorcycle racing technology, where it has proved to be far superior to conventional oils. This oil has an extremely wide viscosity rating and gives exceptional performance in four stroke motorcycle engines. Synthetic oil technology provides the following outstanding advantages:

1. Naturally high viscosity index, giving good flow rates to bearings at low temperatures, coupled with superb film strength at high temperatures.
2. Low level of volatility, which reduces the loss of valuable oil components at extreme temperatures inside the engine.
3. High film strength.
4. Outstanding wear protection.
5. High level of component cleanliness.
6. Excellent thermal stability.
7. Low fluid friction.

### Applications

It is recommended for all turbo-charged and naturally aspirated racing engines and superbikes or where the manufacturer specifies an oil of this type and specification.

### Performance Levels

API SL  
JASO MA

### Physical Characteristics

SAE Classification	10W-40
Density at 15 °C	0.850
Kinematic Viscosity at 100 °C, cSt	14.80
Kinematic Viscosity at 40 °C, cSt	92.00
Viscosity Index	167
Sulphated Ash %Wt.	1.2
Pour Point, °C	-40

(TDS Race 4TT 10W-40 – 020712 Issue 3)

Certificate No. FM 21756

Certificate No. EMS 60044

Certificate No. OHS 555083
